# Self Structure EDH

## GENERAL CHARACTERISTICS

- Own design and manufacturing, according to customer needs.
- Installation completely screwed, without cutting or welding.
- Modular design, fast and simple, from the inside, thus avoiding the mandatory use of exterior scaffolding.
- Structure in metal enclosure blind, perforated, transparent or matte glass.
- Ideal for placement in stairwells, air shafts, community centers, public or private.
- Adaptable to the environment thanks to the wide range of existing colors.
- Possibility to include any model doors, manual and / or automatic.
